

Lan Pham

1117 Chiron St., Lafayette, CO 80026
lanpham@mymail.mines.edu | (720) 394-3490

OBJECTIVE

Actively seeking a full-time position where my education, technical skills and experience can be demonstrated.

EDUCATION

Colorado School of Mines

B.S. Petroleum Engineering, 2017 GPA: 3.47

University of Colorado Denver

B.S. Biology, 2014

INTERNSHIPS

Liberty Oilfield Services

Field Engineering Intern

Denver, CO

May-August 2017

- Learn and setup FracPro and Database Acquisition system for hydraulic fracture analysis operation.
- Collaborate with field engineer to run real-time data to determine the best way to stimulate wells to efficiently recover hydrocarbon.
- Cooperate with crew members to ensure jobs are done as designed and maintain operation and prevent potential downtime.
- Collect data in timeframe as operational management particularized. Modify design as customer requests during operations.

Tallgrass Energy Partners

Engineering Department and Environmental Health and Safety (EHS) Department

Lakewood, CO

May-August 2016

- Assisted field engineers and performed pigging operation and analyses for multiple pipeline segments.
- Collaborated with the Engineering System Design Team and designed a flow capacity system to use as a rule of thumb to estimate pipe capacities using WinFlow software.
- Analyzed gas flow meter data for accurate coordinate identification using Visual Basic and Excel.
- Reviewed and updated Title V air permit application timelines for the EHS Air Compliance staff.
- Completed Tallgrass standards spreadsheet for the EHS Department.
- Attended an Aboveground Oil Storage Tank Air Training Workshop and received a training certification.
- Generate pipeline dig sheets for field engineers to identify PipeImage software anomalies.
- Assisted Engineering Project Manager in ordering a pump for an oil storage terminal station.

OTHER WORK EXPERIENCE

Trimmer Lawn Care LLC

Associate Manager

Lafayette, CO

2006 - 2015

- Ensure safety and integrity for employees at working locations.
- Consult customers with accurate lawn care estimate.
- Analyze business performance quarterly and annually.
- Organize employees' schedule, payroll and business advertisement.
- Develop, implement, and enforce safety programs and protocols for each project.

TECHNICAL SKILLS

- **Computer:** Fracpro, Visual Basic Learning, Microsoft Excel, Word, Access, PowerPoint, Winflow software, PipeImage software, Drilling simulation.
